

**“Ruutu”** one-off collection - Ronan and Erwan Bouroullec

“Ruutu” one-off collection features 14 unique vases in hand-blown glass designed by Ronan & Erwan Bouroullec and made by iittala, the renowned Finnish manufacture of the iconic Alvar Aalto vases. The shape of the vases combined with the considerable sizes (from 35 to 62 cm high) challenges the material to its limits and unveils the highest level of glass-blowing expertise. These grand vases, produced in three different colours, fully expose the qualities, translucency and purity of such a living material.
