

## « Chains » - Ronan and Erwan Bouroullec

---

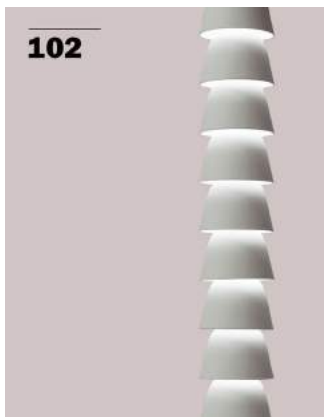

The 'Chains' collection by Ronan and Erwan Bouroullec represents a continuation of the formal vocabulary which the brothers have been developing for many years.

Exhibition:  
from 4th November 2016  
until 7th January 2017

Opening Reception:  
Thursday 3rd November 2016  
3pm to 8pm  
Open Tuesday to Saturday  
from 11am to 7pm

Module, assembly, and the relationship with the surrounding space – central aspects of their research – characterise this new work. The collection is composed from light chains made out of numerous links that can be endlessly joined together. Whether they are made of immaculate white plaster – the matte mineral skin seems to materialise the light – or anodized aluminium in azure blue, pale green or blond gold, the bell shapes become substantial in the light, which glitters all over their curved surfaces.

A series of 'Chains' made from ceramic bells also exists; it is glazed in glossy red, without light, and can be mounted either as an installation or as a set of screens. The glossy glaze confers an organic dimension, almost as if the pieces were alive.

Mineral White Chain - white technical plaster  
Blue, Green, or Blond Gold Metal Chain - anodized aluminium  
Ceramic Chain - red glossy glazed

*"Single" Chain - Limited Edition of 8 pieces + 2 AP + 2 prototypes*

*"Triple" Chain - Limited Edition of 8 pieces + 2 AP + 2 prototypes*
