## « monobloc »

---

Galerie kreo is pleased to present "monobloc", a new group exhibition showcasing a selection of pieces by the emblematic designers of the gallery.

"monobloc: made of one piece" is the common thread of this exhibition which presents seats and vases as well as contemporary and vintage lights.

### "game on" side table - Jaime Hayon

The piece by Jaime Hayon, which is part of the "Game on" collection developed around the theme of sport, is shaped in one single block of Carrara marble.

### "ignotus nomen" coffee table - Pierre Charpin

The coffee table "ignotus nomen" appears as a solid piece. The white object, leitmotif of this collection, is an integral part of the work, "inhabiting" it and bestowing its singularity.

### "hieronymus marble" - Konstantin Grcic

The Hieronymous Marble is made of a single material: white Carrara marble.

The piece contains various functions: it can serve as a seat, writing desk, pedestal ... Through the Hieronymous collection, Konstantin Grcic explores the different ways of taking possession of a seat and how these stimulate our concentration.

### "cellae H3" - François Bauchet

For the "cellae" collection François Bauchet uses an innovative material combining technical felt, resin and fiberglass. Each work is composed of different cells that the designer comprises to realize the piece, which then appears in its entirety.
