Konstantin Grcic « Jaxone » Table

Through the glass table-top one can see a completely new aluminum structure, endowed with the precision which characterizes the work of Konstantin Grcic. On this structure have been lacquered specifically developed graphics, inspired by the inscriptions printed on sport equipment. Konstantin Grcic was trained as a cabinet maker before studying Design at the Royal College of Art in London. Work by Konstantin Grcic forms part of the permanent collections of the world's most important design museums (a.o. MoMA/New York, Centre Georges Pompidou/Paris).

Hella Jongerius « Swatch »

Swatch Table is a contemporary version of a coloured mosaic. The colours have several gradations – transparent, milky, gloss and matt. The shapes of the blocks determine the outline of the table. The Designer Hella Jongerius has become known for the special way she fuses industry and craft, high and low tech, tradition and the contemporary. Her work has been shown at museums such as the MoMA (New York), the Design Museum and The Victoria & Albert Museum (London).
